## General Services

Christian Medical College is supported by a dedicated team of Support Staff. These include the following Departments:

The **Civil Engineering Department** is responsible for the construction and maintenance of buildings, water supply, sanitation and roads. During 2012-13, a total of 14 major projects (above Rs. 5.00 lakhs) and 47 minor projects (below Rs.5.00 lakhs) were completed for an overall value of Rs.5,82,77,400.00. Another 22 major projects and 16 minor projects are under progress. A total of 15,975 maintenance jobs in masonry, plumbing, carpentry, painting etc. were also carried out.

The **Electrical Engineering Department** takes care of all the electrical and fire safety requirements of the Main Hospital. It maintains 25 transformers, 33 generators and 62 lifts. During 2012-13, the total power consumed in the Town campus was 2,51,36,276 units. Steps have been taken to replace old electrical devices with newer, energy efficient ones. The institution has proposed and envisaged 50.4 KWP Solar Power System on the OPD Block Terrace. Fire safety equipment is regularly serviced and maintained. Special maintenance work is done for all wards and the ICUs.

The **Electronic Engineering Department** is involved in the installation, calibration, testing and maintenance of Biomedical Equipment and Electronic Equipment. It also maintains some of the centralized systems such as the Pneumatic Chute, OPD Patient paging, Nurse paging, Chapel Relay and Surveillance Camera systems. Over the past year, the Department has introduced systems like Online Capital Budget, Online Medical Gas Request etc. The Pneumatic system was upgraded with optical sensors and RFID for 20 stations. From January 1, 2013, the departmental procedures and processes have been computerized, making the department paperless.

The **Department of Environmental Engineering** supervises the provision of uninterrupted drinking water supply to the CMC Town campus, the College of Nursing Kagitapattarai campus and the Schell Eye Hospital. The Sewage Treatment Plant, also maintained by the department, produces 18 to 20 lakh litres of recycled water every day. This creation of this department in 2011 was a major step by the institution to reduce its carbon footprint.

The **Mechanical Engineering Department** oversees the maintenance of hospital equipment in CMC and its peripheral units. It provides steam and medical gases to the operation theatres and critical care units. During 2012-13, 10,547 jobs were carried out and 206 new medical gas outlets were added to the existing system. The Asset Recycling office streamlines the

process of recycling equipment within the institution and to mission hospitals.

The **Department of Dietetics** takes care of the nutritional needs of the outpatients and the inpatients. The team consists of a chief dietitian and 13 qualified dietitians. During 2012-13, 1,46,898 hospital diets were served. A total of 25,155 patients were seen in the Outpatient Department.

The **Postal Section** handled 64,503 registered letters and 688 registered parcels.

The **Laundry Department** handled 71,81,403 pieces of linen, at an average of 19,676 pieces per day. The Department dedicated new equipment that aids the process of washing and ironing linen for the hospital.

The **Hospital Maintenance** is responsible for the cleanliness and general maintenance of the Hospital Campus. The College Maintenance looks after the same in the Bagayam Campus. A dedicated team of Hospital Housekeeping attendants work tirelessly to maintain standards of cleanliness in the Hospital.

The **Central Sterile Supply Department** marks forty years of dedicated service to the institution. During 2012-13, the Department received 32,23,860 items for sterilization and processed 43,30,616 sterile packs. An average of 11,864 packs were processed every day, and 6,59,302 items were supplied to the OPDs.
